PLEASE FOLLOW SAFETY RULES. NO JUMPING. NO DIVING.

URBANIA

THE STRENGTH AND STYLING OF ATLANTIC POOLS

Atlantic's Exclusive Support Systems Combine Great Looks and Real Strength

CHANNEL-LOK II BUTTRESS SYSTEM

The Engineering design of the Channel-Lok II buttress system has been developed to require fewer buttresses without compromising its strength and reliability. Along with Atlantic's unique structural system and fewer buttresses, the Channel-Lok II buttress system will be appreciated for its good looks and ease of installation. This buttress system can be installed on a flat concrete surface. There is no excavation or digging needed on a flat compacted level surface.

A vigorous backhoe test is performed prior to the launch of each new pool

The Channel-Lok II buttress system has been put through an intensive testing process to provide peace of mind for the final consumer knowing they will enjoy years of worry-free fun and relaxation. All pool designs meet, or exceed the pool industry standard. In addition to an extensive in-house Engineering design process, a vigorous backhoe test is performed prior to the launch of any new pool.

The Channel-Lok II buttress system is available on value-priced models with a 52" wall height.

All-Weather Protection for Years of Family Fun

The top ledges and uprights on every Atlantic pool undergo a state-of-the-art protective treatment process. In addition, they are coated with Texture-Kote. This combination provides incredibly long-lasting, all-weather protection with added resistance against corrosion, scratching and damaging UV rays. Atlantic's unique quadra-fold system and bolting pattern provides maximum wall joint strength. Pool walls are corrugated for increased durability and resistance to ice and impact damage. Only Atlantic pools feature the self-supporting omega stabilizer bar developed to simplify homeowner installation. The ease of assembly has made Atlantic pools the number one choice of many professional installers. Atlantic pools are available in an array of attractive colors and patterns.
