THE STRENGTH AND STYLING OF ATLANTIC POOLS

Atlantic's Exclusive Support Systems Combine Great Looks and Real Strength

GIBRALTAR BUTTRESS-FREE SYSTEM

The Gibraltar Buttress-Free is an oval pool that does not require angle side supports (buttresses), which take up extra yard space. This unique system delivers unsurpassed structural strength without visible supports, has an attractive streamlined appearance and takes up less valuable yard space. For example, a 15' x 30' oval pool with buttresses requires 21' x 30' once installed. A 15' x 30' Gibraltar oval only requires 15' x 30'. You save 180 square feet of yard space or have enough room for a larger pool.

CHANNEL-LOK 1 COMPACT-BUTTRESS SYSTEM

The Channel-Lok 1 Compact-Buttress System requires fewer angled supports (buttresses), yet provides an uncompromised level of strength. With fewer supports, space and side accessibility to the pool is increased while installation time is reduced. This is the only oval system with matching vertical supports. Unlike traditional systems, the Channel-Lok 1 side verticals match the end verticals for eye-pleasing appeal.

Gain up to **2.5 ft.** per side

A vigorous backhoe test is performed prior to the launch of each new pool

All-Weather Protection for Years of Family Fun

The top ledges and uprights on every Atlantic pool undergo a state-of-the-art protective treatment process. In addition, they are coated with Texture-Kote. This combination provides incredibly long-lasting, all-weather protection with added resistance against corrosion, scratching and damaging UV rays. Atlantic's unique quadra-fold system and bolting pattern provides maximum wall joint strength.

Pool walls are corrugated for increased durability and resistance to ice and impact damage. Only Atlantic pools feature the self-supporting omega stabilizer bar developed to simplify homeowner installation. The ease of assembly has made Atlantic pools the number one choice of many professional installers. Atlantic pools are available in an array of attractive colors and patterns.

FRAME STRUCTURE

WALL & FRAME COATINGS

OPTIONAL

Resin Bottom Rails

- Moulded from 100% high impact resin plastic for superior durability and corrosion resistance
- Extended wall retainer flange providing easy wall installation and additional reinforcement
- Internal rib structure for maximum support and strength
- Incorporated groove for positive insertion of rails into resin base plate

Resin Bottom Plates

- Constructed of 100% high impact resin material for greater longevity and corrosion resistance
- Engineered with deep ribbed structure for maximum strength

Choose the Best Size for Your Family

| | SIZE FEET | SIZE METERS | VOLUME U.S. GAL. | VOLUME LITRES |
|----------------|-----------|-------------|------------------|---------------|
| ROUND POOL 52" | 12' x 52" | 3.66 x 1.32 | 3,196 | 12,099 |
| | 15' x 52" | 4.57 x 1.32 | 5,019 | 18,997 |
